FCC

COMMENTS OF PHIL PARR

1. Phil Parr ("Parr"), a United States citizen and resident of Anglina County, Texas requests a change in the table of assignments to add Channel 242A to Hudson, Texas, as a "drop-in" assignment.

2. Parr states that the allocation window permits the use of this channel as is shown in the attached technical exhibit.

A. The proposed service meets all FCC spacing requirements with modifications of the table proposed.

B. The entire city of Hudson, Texas will be served by this proposal.

3. This proposal is in the public interest:
  - A. This assignment is a first local service to the city of Hudson, Texas. The US Census designated city has 2,374 persons in 902 households.
  - B. The city government of Hudson has a mayor and city council, both elected by the citizens. There is a fire department, public school system for all grades, water district, and sewer district.
  - C. The city has its own business identity through its bank, 3 restaurants, 3 grocery stores, 10 churches, 20 retail outlets, 19 industrial related business, and 7 professional businesses.
  - C. The proposed operation will serve 74,470 persons in 2,516 square kilometers within the 60 dBu contour.
4. Parr will promptly file a FCC Form 301 upon grant of the petition and construct the station on grant of the permit.

Respectfully submitted,

Phil Parr  
1604 Southwood  
Lufkin, TX 75904

Date: 11-16-94

## ALLOCATION STATEMENT

This statement is prepared on behalf of Phil Parr ("Parr") in Hudson, Texas. This is a petition for Rulemaking which requests an amendment of the Table of FM Channel Allotments, Section 73.202(b) of the FCC Rules. The request is to add Channel 242A. This statement discusses the technical factors involved in the above change.

1. The reference coordinates for this Hudson, Texas proposal are: Latitude 31°20'30" North, Longitude 94°48'30" West

2. As can be seen from the attached Exhibit A, Class A operation from this site will comply with all separation requirements as set forth in §73.207 of the FCC Rules.

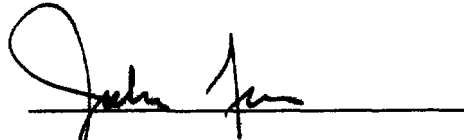

3. The coordinates of the reference site are not located in the center of Hudson due to allocation restrictions, but the reference site is located within the city limits. From this site the entire city of Hudson will be served with the 70 dBu contour as required by §73.315(a) and (b) as shown in Exhibit B.

4. The site proposed herein is 620 km to the nearest point of the US-Mexican Border and therefore beyond the 320 km coordination distance required with Mexico.

5. The population served will be 74,470 persons within the 60 dBu (1 mV/m) contour having an area of 2,516 square kilometers.

I, John R. Furr, am a Communications Consultant, and represent Phil Parr. My qualifications are a matter of record with the Federal Communications Commission, and all statements made herein are true and correct to the best of my knowledge and belief.

November 14, 1994
